SMART COMPOSITE TIMBER

# Viridi Indonesia

## Catalogue 2023

[viridi.id](http://viridi.id)

## Smart Composite Timber is the new wood.

---

Viridi is a sustainable composite that is durable and all weather-resistant. Utilizing the latest composite technology using reclaimed timber and HDPE, our product is made to closely resemble real wood as well as its beauty.

[viridi.id](https://viridi.id)

## Composite Ingredients

---

Reclaimed Timber, Recycled Plastic (HDPE),  
Anti-mould Agents, Color, UV Stabilizers,  
Coupling & Other Bonding Agents.

viridi.id

## Viridi

The latest composite wood technology that looks and feels like natural wood, is weather-resistant, termite-resistant, anti-deforming, and does not change color.

## Sustainability

For the sake of a sustainable environment, all Viridi materials are made from recycled wood and plastic.

[viridi.id](http://viridi.id)

## Natural Look

Many wood composite products in the market still look like plastic. Viridi have been crafted and designed to look and feel like natural wood.

## Care & Cleaning

Viridi products can be easily cleaned by scrubbing its surface using hot water and liquid soap.

# Benefit Summary

Here are the range of benefits when using our products.

No Oiling or  
Painting Required

Weather  
Resistant

Use Standard Hardwood  
Working Tools

Repairability

Rot, Decay, Mould &  
Mildew Resistant

Termite Resistant

Measure Resistance  
to Denting & Wear

SMART COMPOSITE TIMBER

---

In 2017, we established our company with a mission to limit the overconsumption of wood and plastic that contributes to excessive air pollution. In the long run, it will be extremely harmful for the wellbeing of our environment. From this, we aim to stand out from other brands by making it possible to create long-lasting premium composites out of recycled materials.
